TO: Hospital Administrators
Hospital Pharmacists
Infusion Sites
Hospital Emergency Response Coordinators
Regional Hospital Coordinating Centers

FROM: Theresa Tolar, BSN, MBA, RN
Hospital Preparedness Coordinator
Division of Preparedness and Readiness
Office of Preparedness and Response

RE: Cycle 02 Antibody Therapy Allocations to Healthcare Partners

Cycle 02 Antibody therapy allocations will be distributed the week of 09/20/2021 includes the addition of Regeneron's antibody cocktail casirivimab/imdevimab for the treatment of mild to moderate coronavirus disease and the bamlanivimab/etesivimab products. In Cycle 02 the state of Illinois was allocated 1008 patient courses of bamlanivimab/etesivimab and 2352 patient courses of Regeneron's casirivimab/imdevimab.

State Allocation Process will consider the following metrics:

- Case rate by county
- Available ICU beds in COVID Region (not all counties have ICU beds)
- Social Vulnerability Index by county (High vs. Low SVI)

Any vials not accepted by healthcare partners will be re-allocated to other healthcare providers based on urgent requests to IDPH. **Note:** *A request does not guarantee the amount of Mab requested will be provided or that the request will be approved. Priority will be based on areas of the state with the greatest need.*

Supportive Resources:

- [Monoclonal Antibody Therapy Playbook](#)
- Amerisource Bergen support center: C19therapies@amerisourcebergen.com
- IDPH Technical Assistance:
 - Allocation and Distribution: Theresa Tolar Theresa.tolar@illinois.gov
