IHA Antitrust Statement

The Illinois Health and Hospital Association has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, IHA members must avoid discussing certain topics when they are together — both at formal association membership meetings (such as board or task force meetings) and in informal contacts with each other under the auspices of IHA. Such prohibited topics include charges, prices, fees, discounts, allowances, rates, salaries, or other similar financial terms or conditions; allocation of markets, patients, customers, or services; division of territories or services; or refusals to deal with or boycotts of suppliers, customers, insurers, payers, or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.
