

OPIOID STEWARDSHIP

Reducing opioid use in the emergency department (ED)

Our approach includes:

- ▶ Providing pharmacist-led education on appropriate opioid prescribing patterns to ED staff
- ▶ Offering alternatives to opioid therapy using patient-specific treatment plans
- ▶ Adapting existing infrastructure to optimize safe and effective pain treatment
- ▶ Mitigating opioid overuse through targeted interventions

Patient, Family & Community Impact

**Improves
patient safety**

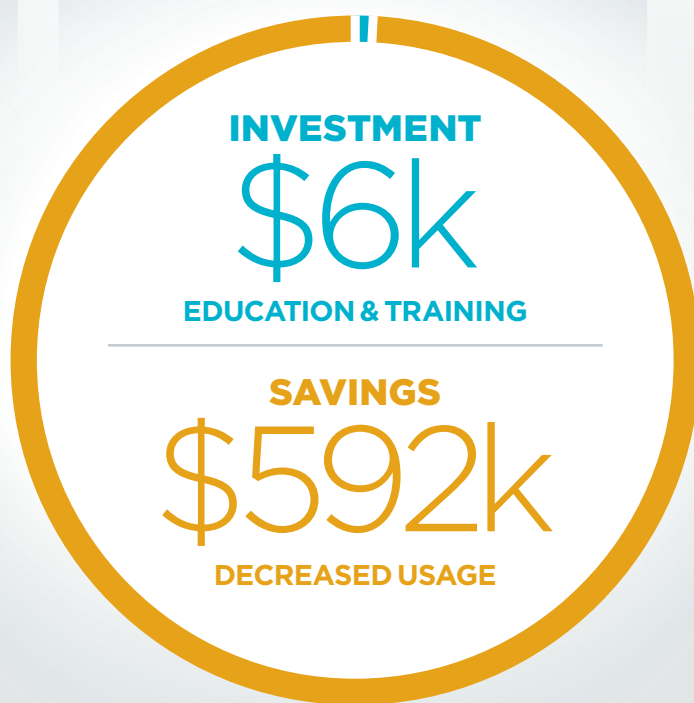

**Improves awareness
of opioid-related risks**

**Reduces opioid overuse
in the community**

Saving Lives, Saving Dollars

Launch date: December 2018
