MEMORANDUM

TO: Hospital Administrators
Bed Placement Coordinators
Emergency Response Coordinators
Regional Hospital Coordinating Centers

FROM: Public Health Emergency Operations Center

RE: **Update** - EMResource Reporting Frequency

Effective immediately, EMResource reporting can return to **ONCE** daily by 10am, this includes all bed availability and COVID data elements.

If a Regional Health Care Coalition chooses to report more frequently those decisions should be made in coordination with the hospital partners within the regional coalition.

Thank you!
